1.1 About this document

The purpose of this document is to describe the public data of Form T3010 available on the Open Data website (open.canada.ca). This data dictionary covers registered charity information returns with a the month and day of the charity's fiscal year end. Charities must file their annual Form T3010 within six months of their fiscal year-end. Date that falls within the **2013 – 2024** calendar years.

- Registered charities can complete and file their T3010 Registered Charity Information Return online through CRA's My Business Account.
- Charities can update their organization's information online and correspond with the Directorate electronically through My Business Account.

1.4.1 Changes to T3010 (19) Version B – May 2019

Impacted Areas	Details
Versioning Information	This was the first version of T3010 form version 23 (v23).
Basic Information Sheet (BIS)	As of May 2019, the BIS was no longer mailed out to charities.
Charity contacts	The BIS was the primary source of contact information that was submitted as part of the T3010. It was decommissioned in May 2019. Contact information is stored at the charity account level, and allows for multiple contacts, for example, a charity can now store multiple web addresses.
New sub-category code field (“Identification” section).	Added new sub-category code field, which is a subset of category code. There were also several category code changes; these codes can be found in the codes lists data dictionary.
“Activities outside Canada – Details on financial” Section	“CIDA” was changed to “Global Affairs”.
“Non-Cash Gifts (Gifts in Kind) Received” Section	On the T3010 form the term “Gifts in kind” was renamed “Noncash gifts".

Financial fields	All financial fields in the extract now have a length of 14, including one digit reserved for a potential negative sign.

1.4.2 Changes to T3010 (19) Version C – October 2019

Impacted Areas	Details
New Form Version	The new form version 24 (v24) was released. Various questions were removed from the form.
Old Form Versions	Old versions of the form (i.e. v23) can still be entered into the system if they're received on paper, if an adjustment to the old version is being processed, or if an existing version 23 of the form was in progress at the time of the fall 2019 release.
New Form ID data element	A new "Form ID" key field was added to this data dictionary to indicate the form version of the T3010 that is being reported on within specific data records. It was added to each table that uniquely associates to a T3010.
New "Associated Form ID" column	A new "Associated Form ID" column was added to each table below to indicate which form version (by Form ID) will populate a value for that field. This column identifies the data being populated as follows: a. If the entry is blank the field will be populated for all versions. b. If there is a "Form ID" value the field will only be populated for the specified versions in that column.
Schedule 7 "Political Activities Funding" and "Political Activities Resources" tables removed	Two of the reported tables (**"Political Activities - Funding"** and **"Political Activities - Resources")** were removed from version 24 of the form and the associated tables will no longer populate records for v24 and onward. This means that only the description table remained for v24 and onward.
Schedule 7 "Political Activities – Description" table was renamed	For version 24 of the T3010 form, Schedule 7 "Political Activities – Description" table was renamed "Public Policy and Development Activities - Description".

Section C – Line 2400 was removed	The associated activation question for Schedule 7 in Section C (Line 2400) was also removed from v25.

1.4.4 Changes to T3010(23) Version A – May 2023

Impacted Areas	Details
New Form Version	There is a new T3010 version (v26) being developed and deployed for May 2023 which will introduce following changes. These changes are addressed in the data dictionary modifications presented below and are the result of the legislative changes as part of the Budget 2022 - new "charitable partnerships" framework, regulation 3703 (which was enacted when Bill C-19 received Royal Assent on June 23, 2022)
Old Form Versions	• Old versions of the form (i.e. v23/24/25) can still be entered into the system if they are received by paper, an adjustment to the old version is being processed, or an existing version 25 of the form is in progress at the time of the May 2023 release. Going forward the CHAMP system will handle, and report on, all versions of T3010 as it is expected there will be additional T3010 form changes in future releases. • In order to accommodate old versions of the form all fields will remain intact even if they no longer exist for the specified version of the T3010. In these cases the system will produce a blank field value for that T3010 record
New Form ID data element	A new "Form ID" key field was added to this data dictionary to indicate the form version of the T3010 that is being reported on within specific data records. It was added to each table that uniquely associates to a T3010.
New "Associated Form ID" column	A new "Associated Form ID" column was added to each table below to indicate which form version (by Form ID) will populate a value for that field. This column identifies the data being populated as follows: • If the entry is blank the field will be populated for all versions. • If there is a "Form ID" value the field will only be populated for the specified versions in that column.
Section C – 4 new fields	Four new fields were added to the form and are as follows: • 5840 • 5841 • 5842 • 5843
Section D / Schedule 6 (text changes + one new field)	One new field was added to Schedule6/Section D • 5045

In these cases the system will produce a blank field value for that T3010 record
